Initial Curriculum Design Concepts
• Curriculum for Sustainability Literacy WWU-wide
• Sustainability Minors (Rooted In a Major Department)
• Trans WWU Sustainability Major
• Continuing Education and Professional Program
• Other Curriculum Concepts

Design Charrette
The word charrette may refer to any collaborative session in which a group of designers drafts a solution to a design problem. While the structure of a charrette varies, depending on the design problem and the individuals in the group, charrettes often take place in multiple sessions in which the group divides into sub-groups. Each sub-group then presents its work to the full group as material for future dialogue. Such charrettes serve as a way of quickly generating a design solution while integrating the aptitudes and interests of a diverse group of people. From Wikipedia.
