Philosophy 112
Second Writing Assignment

Look through the articles, editorials, and letters on I-1000 provided here:

http://www.truecompassionadvocates.org/news.html

Identify one argument against I-1000 or assisted suicide in general.

If you’re having trouble finding one, read this article carefully:

http://www.truecompassionadvocates.org/newsart090626.html

Finally, present, explain, and evaluate the argument identified.

In presenting the argument, you should try to write out the argument in premise-conclusion format.

In explaining the argument, you should explain the reasoning behind the argument. This will require you to go line-by-line and say something in support of each step.

In evaluating the argument, you should raise a potential objection. This will require you to criticize the form of the argument or to question one of the premises.

Your assignment should be typed and less than one page in length.

Your assignment is due at the beginning of class on Friday, November 20th.
